The "01blog1" example of levels of titles

An example blog title and a long, multi-line abstract without fixed line breaks.

1 level1 Titel

Some nonsense text under level 1[1]

1.1 level2 Two

Some text.

1.1.1 level3

The tufte style does discourage the use of multiple levels of titles; the styles for the levels 3, 4 and 5 do not have sensible defaults and should be adapted[2] if intended to be used!

level 4 textfor level 4

level 5 and level 5
To show list, references and images are explained in the next examples.

---

[1]Technically, it will be rendered as level 2 title, given that the title is level1.
[2]Probably in the `theme/templates/static/tufte.css` file
