

Index for publication list

Index for the publication directory

An index page for testing publication list.

The publication list is produced separately from a **bibtex** source as a **html** file which is then referenced here. The **html** file references then the document **pdf** files, which are all included in the resources directory and copied from there to the baked homepage.

Produced with 'daino' (version Version versionBranch = [0,1,5,3], versionTags = []) from /home/frank/Workspace11/dainoSite/PublicationList/index.md
